2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Multipronged strategies are adopted for student mentoring and these include: (i) Entrusting Teachers: Although students are free to approach any teachers to seek suggestions on academic matters, personal problems and career guidance, yet one or two teachers in each department are entrusted as mentors for this specific role. (ii) Department of Psychology: Psychosocial and personal assistance to the students are facilitated through the department of Psychology. (iii) Career guidance and Placement Cell: This cell take initiatives to acquaint the students with tangibles, intangibles and adroitness and skill required for achieving success and shape their career. (iv) Workshops, Seminars: Workshops and seminars are organized for personality development and grooming in soft skills of the students. Eminent personalities from various fields are invites to share their experiences with the students. Through these workshops and seminars students learn essential scruples and adroitness in presenting their curriculumvitae (CV) in an impressive way and also for identifying job opportunities as well as preparations pertaining to interviews. Thus, with the help of college teachers as well as outside experts, academic and career counselling / mentoring are provided to the students. (v) Yuva Mahotsava – Yuva Mahotsava is regularly organized in the college on annual basis. It provides platforms for the students for expressing their hidden talents. Teachers and outside experts guide and mentor students according to their aptitudes and inclinations to participate in various activities which give them public exposure, confidence and to formulate innovative ideas in various fields, like debating, speech, cultural activities, sports, curricular, cocurricular and extracurricular activities.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

At U.G. level, internal examination in theory papers, practical, presentations on various topics given by the students, are regularly conducted and students are evaluated on based on performances. At P.G. level, CBCS (Choice Based Credit System) is operational since 2012. Every paper has 30 marks for continuous internal evaluation (CIA). Mid semester tests pertaining to CIA consists of MCQ, Short Answer Type and Long Answer Type Question> Besides the internal examinations, students are evaluated on the basis of assignments, seminars / quiz, attendance, punctuality and conduct. Every department endeavors to make the process more reliable, more comprehensible and transparent to make the evaluation more authentic and credible. On the basis of performances, slow and advance learner are distinguished and adequate attentions are given to slow learner while advance learner are mentioned to undergo indepth studies researches on various advance topics.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

At the beginning of the session, the university publishes the academic calendar mentioning schedules of academic activities to undertaken, filling up of

examination for the period during which examinations are to be conducted, holdings and allied activities. Based on the university calendar, the college prepares its own calendar and strive hard for strict adherence to calendar. Since 18th March, 2018, erstwhile Magadh University was bifurcated to create a new university i.e. Patliputra University with headquarter at Patna. Our college, now become a constituent unit of Patliputra University but in the matters of examinations, it is under both universities. Examinations scheduled of Patliputra University are being adhered to, while the examinations of Magadh University are delayed. Under the guidance of the Governors Secretariat, Magadh University is striving hard to stick to the schedules of examinations. The college is making strenuous efforts to cover the syllabi as per schedules of each of the both universities.

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

Physical facilities and academic facilities form the integral part for effective implementation of the curriculum through quality teaching and learning process. The Principal, Routine incharge in consultation with HoDs strive to provide conducive ambience by allocation of spaces, classrooms, laboratories, access to computers etc. to different departments along with adequate infrastructural support for carrying out curricular, cocurricular, extracurricular and research activities. Each department has its own classrooms in which lectures are delivered. Practical subjects like Physics, Chemistry, Botany, Zoology, Electronics, Environmental Sciences, Environment and Water Management, Biotechnology, MCA, BCA, MBA, BBM, Geography, Psychology etc. have their own laboratories/computer labs and these facilities are optimally utilized as per the requirements. Common facilities like sports, separate common rooms for boys and girls, canteen etc. are made available to all. With the permission of sports incharge, sport's field, sports kits are given to students for sports activities. Each department conducts classes as per the routine and the curriculum in its allocated space. Expert departments are assigned the jobs of imparting teachings in Ability Enhancing Compulsory Courses (AECC), Ability Enhancing Courses (AEC) and Generic Electives (GE). The library has a Library Advisory Committee along with Profincharge library. The college has a Central library along with seminar library in each departments and student can avail the facilities by showing IDs issued by the college/department and adhering to rules/procedures of the library. Service is provided to the students at "book issuing and return" counter. In Hall of boys and girls, magazines and newspapers are also displayed. Helps are rendered by library staffs in locating books, journals and reference books. Computers are installed at various laboratories, departments, library, administrative offices, international office, Language Lab, Placement and Guidance Cell etc. and these are used by students during computer practical, online studies etc. with the proper permission of the departmental authorities/ incharge of computer labs. All the departments and laboratories including Library have computers and printers with WiFi facilities and these are accessible to

students through proper permission of the authorities. Each department has KYans (projector cum computer) which enables ICT teaching and learning process. The college strives assiduously to evolve policies and strategies that promote participation of students in curricular, Cocurricular and extracurricular activities. The policies and strategies adopted by the college for maintaining and utilizing physical and academic facilities are (i) Augmenting and expanding infrastructures for laboratories, classrooms, sports etc. (ii) Organizing cultural events, games and sports, Yuva Mahotsava, Quiz competitions, Seminar workshops etc. (iii) Proper allocation of funds for enhancement, maintenance of infrastructure and its optimum utilization. (iv) Acquisition of funds from state, central governments and other funding agencies for augmenting and expanding infrastructures.

The following academic and administrative bodies have students representatives: (i) IQAC (ii) AntiRagging Committee (iii) Student Union (iv) Administrative wings of NCC and NSS (v) Various societies (vi) Placement and Guidance Cell. The college has active student union whose members are elected. The student union of the College has been allocated a separate room with requisite facilities. The representative character of students union defines its roles and responsibilities. It is a facilitator between college and the students. It raises the issues of the students at various platforms and in the committees of the college and senate of the university. It helps in maintaining disciplines, organizing seminars, workshops, cultural activities like Yuva Mahotsava, holding of annual sports etc. The student representatives reflect their presence in each of the committees responsible for holding above events. Students representatives also record their presence in IQAC of the college Through inclusive and representative character of IQAC, participation of students are ensured in planning the policies, strategies for development of the college are ensured. Their voices are attentively heeded by the authorities concerned and issues raised by them are effectively addressed. The presence of students in Antiragging committee is helpful to curb ragging and to maintain discipline in the campus. Similarly, the presence of student's representatives in placement Guidance Cell, administrative wings of NCC and NSS is of immense help in exploring job avenes, holding campus placements, organizing students for extension activities, green initiatives, social services, awareness campaigns, gender sensitivities etc.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

A N College, Patna has registered Alumni Association. Election is held every two year for office bearer and constitution of executive committee. It has well charted memorandum of association and it is conducted by the rules framed therein. Alumni get registered through college website and in addition to it they are well connected to teachers and other alumni through various whatsapp groups, facebook, twitter etc. They actively take interest in the affairs of the institutions and offer valuable suggestions. They help their junior students in making choices for career and guide them accordingly. The also participate in various campaigns like environmental protection and preservation, road safety, energy conservation etc.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Teachers, staffs and students are members of various committees and are involved in decision making process which renders it participatory in nature. This helps in improving the effectiveness and efficiency of institutional process. The college promote a culture of participative management Through deliberations and interaction with teachers, staffs, various committee member and students, the college leadership encourages the decentralization and participative management. Discussions and deliberations are made both statutory and nonstatutory committees faculty members play an active role in management of academic as well as developmental activities. Regular meetings of HoDs and various committees are held, therefore, all members participate in decision making process, therefore, it inherently makes the management participative in nature. Entrustment of responsibilities to HoDs, Bursars, IQAC, ensures decentralization and participative management in dispensation of academic, administrative and financial works. The two glaring and outstanding examples of decentralization and participative Management during the last year are (i) Library Management and (ii) Management of cultural activities (i) Library Management: The library has an advisory council which through profincharge Library, librarian, library staffs and same students BLIS(Bachelor of Library Science) functions in coordinated manner ensuring decentralization and participative management. The library committee/advisory council, through feedbacks of the students and library staffs takes the decision for procurement of new books, journals etc. on the basis of the decision of the library committees comprising of profincharge, Librarian, senior teachers and the Principal as Head of the committee, books, journals, magazines, newspapers etc. are procured or purchased. Some brilliant students of BLIS help in managing the library activities including operations of seminar libraries in the departments. They are paid some amount for the services they render. This is a glaring example of "Earn while Learn" and also ensures participative management of the Library. (ii) Management of Cultural Activities: The college endeavors

for holistic development of its students. By organizing "Yuva Mahotsava" it provides platforms to give exposure to hidden intrinsic and innovative artistic talents of the students. Last year Yuva Mahotsava was organized in which various events like Dance (folk/classical), Music (Classical, Semi Classical, Light Vocal etc.), Instrumental performances, one act play, debate, elocution, painting, rangoli, science exhibitions, poster exhibitions etc. were held. A committee comprising of Head of the Institution, teachers, staffs and students assisted by subcommittees for different events were constituted. In order to ensure decentralization and participative management, each subcommittee had adequate representation of teachers, staffs and students and these were given autonomy to take policy decisions for the events assigned to them. These subcommittees through involvement of the student representatives acted and coordinated in a efficacious manner and ensure success of "Yuva Mahotsava".

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	The college is a constituent unit of Patliputra University UG curriculum is prepared by the university and a large number of teachers are members Board of studies/syllabus committee and thus play pivotal role in restructuring/revising curricula of various subjects. For postgraduate classes under CBCS scheme, courses of studies were prepared under the supervision of Governor's secretariat. A sizable number of teachers from this college were on the panel of the syllabus committees for various courses and have contributed significantly in updating, modifying, restructuring the syllabi as per the contemporary needs of the students/industries and corporate sectors.
Teaching and Learning	At the start of the beginning of the session, in the meeting of Heads of the Departments with Principal, detailed plan layout is prepared. Each department plans in detail the time schedule of theory and practical classes based on the number of students, availability of space and infrastructural supports. Besides conventional mode of teaching our teachers adopt various modes of teaching like use of ICT facilities, models, charts and use of laboratories to facilitate "Learning by Doing" in the Laboratory (LBDL). The college organizes different programmes to enhance knowledge, management skills,

lifeskills distinct from the course curriculum. Under S. N. Sinha Memorial Lecture series, seminars, workshops, experts of various professions and fields are invited to augment and enhance knowledge base of the students. Science exhibition, poster exhibitions, debates etc. enable students to show their creativity and innovative ideas. The campus is WiFi enabled and the students have access to it. The students are exposed to the latest developments in the fields of their choice. The teachers act as facilitator and motivator while the students acquire advanced knowledge on their own initiatives.

Human Resource Management

The quality of human resources dictates the success of an organization. Effective Human resource management gives competitive edge and maximizes employee performance. Strategies for quality improvements in human resources management include: (a) Strategic management and optimum utilization of human resources. (b) Minimizing staff attrition rate and improving retention rate. (c) Providing requisite facilities to staff and teachers. (d) Welfare measures like Group Insurance etc. (e) Strategic planning to integrate individual's organisational goals. (f) Maintenance of amicable and cordial relations between management and employees.

Examination and Evaluation

Lesson learnt in theory and practical classes form a major ingredient of the evaluation of the students knowledge. In addition to these students are evaluated through Continuous Internal Assessment, regularity, punctuality, discipline in the classroom. The college within the scope of the university guidelines tries its best to bring reliability and accountability in the evaluation process. The major reforms initiated by the Chancellor's secretariat and implemented by the university and colleges include: The introduction of Choice Based Credit System (CBCS) in PG since 2018. The evaluation process comprises of two tier systems. (i) Continuous Internal Assessment (CIA) by the departments and (ii) University examinations and evaluation by external examiners. The marks obtained in continuous Internal

Assessment based on internal exams, regularity/punctuality, seminars/quiz and conduct of students, are sent to the university and marks obtained in CIA and external examination form the basis for evaluation of the student's performance. Similarly, college conducts internal tests, class tests, oral examination in under graduate classes (UG) also.

Research and Development

Anugrah Narayan College, Patna is premier college in Bihar where teaching and research capabilities are concomitantly being developed. There are many international and national projects undergoing in the college. Various steps are being undertaken to enhance and expand Research and Development activities: a) The Central Instrumentation Facility is being strengthened and augmented. b) Teachers and researchers are encouraged to make efforts for acquisition of projects. c) Research committee of the college assist young teachers in implementing protocols for research applications to different funding agencies. It liaisons with the college International office in matters of International research collaborations, exchange programs and student internship. d) The college is striving hard to provide adequate infrastructures to promote researches in Science, Social sciences and Humanities. e) Many meritorious final year students are being involved in funded research projects. f) Attempts are being made to evolve formulation of research projects with teacher and student exchanges, joint publications and preparation of networks for facilitating collaborations, international/ National linkages. g) The Principal Investigators are being granted autonomy. Timely release of resources/ funds enable PIs to maintain project implementation time line as approved by funding authorities.

Library, ICT and Physical Infrastructure / Instrumentation

(v) Library, ICT and Physical Infrastructures/ Instrumentation Significant initiatives have been taken by the Library Advisory Committee to render the library user friendly and these include: (a) Classification, cataloguing and automation of library (b) Implementation of Soul 2.0 software of INFLIBNET (c) Purchase of new books,

subscription of journals, magazines and e-journals (d) Making provisions for separate Boys and Girl's Reading Hall (e) The process of cataloguing, classification and automation of departmental seminar libraries located in different departments are being carried out. To keep pace with changing trends in software and hardware, the college endeavors to update and upgrade IT infrastructures. Weeding out of old and outdated computers and replacement by new computers are regularly carried out. The campus is WiFi enabled, therefore classrooms have facilities for ICT enabled teaching and learning process with the help of portable community computer Kyan/LCD projectors. Provisions are made in annual budget for procurement, upgradation, deployment and maintenance of computers. AMC are made every year for upkeep and maintenance of computers. The policy of the college is to provide and create essential infrastructures to support quality education and to provide conducive ambience for teaching and learning. Funds are properly allocated for enhancement of infrastructures and their optimum utilization. Attempts are made for acquisition of funds from state, central and other funding agencies for augmenting and expanding infrastructures.

Industry Interaction / Collaboration

The placement and Guidance cell of the college and Department of Management invites prominent people from industries, corporate houses etc. and facilitates interaction with the students a part of quality improvement and employment strategies. Some of the measures in this direction include: (a) Increasing the frequency of industry academia interface and interactions. (b) Onsite visits of industries as part of the projects for comprehensive learning of the processes and management systems. (c) Organizing workshops/ seminars with the industry experts. (d) Entering into collaborations and signing of MOUs with industries.

Admission of Students

Admissions are done by the university through entrance tests. The students are sent from the university on the basis of merit cum choice. Students

give choices for the colleges and on the basis of performance in the entrance test, they are given offer letter and after verification of the documents, their admissions are approved by the college online. This process is applicable on admission to all disciplines UG, PG and Vocational/Professional. The reservation policy of the Government of Bihar are strictly adhered to and SCs, STs and girl students of all categories are given full exemption of fee. The admission process is transparent and the categorywise list of the students selected on the basis of merit cum choice of the college and the subject are uploaded on the university website. Admissions under sports quota is made on merit as per the recommendations of the sports committee.

6.2.2 – Implementation of e-governance in areas of operations:

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. Directing Youthful Exuberance towards Welfare of the Society:

.....

.... Since beginning of 2020 till date , we have passed through unprecedented tumultuous and tormenting phase. To keep our students in good health and mentally sound and alacrious. Recognising the fact that youths are future of the Nation and their prodigious amount of energy, enthusiasm and exuberance can be purposefully directed towards Welfare of the Society. This is accomplished through meticulous planning of NSS and NCC wings of the College. Besides launching awareness programs on various issues of social and environmental significance, plantations, blood donation camps, organising free health check-up, gender issues yoga etc, NSS and NCC volunteers work with community to solve their problems and mitigate their sufferings. Even during the pandemic period , our students became active in their surrounding neighborhoods to help people belonging to different strata of Society. NSS volunteers helped different branches of Banks in maintaining Social distancing, assisted the administration in managing migrant labourers coming from different parts of the country and worked in close unison with the Government. NCC. In association with government agencies, and CARE India foundation they played pivotal role to aware people about dates of their second vaccination. They also assisted govt. agencies by managing crowd for vaccination. Volunteers besides preparing masks , also helped the district administration in controlling traffic at various points of the City. The College endeavours hard to inculcate and embed the sense of social responsibility towards the holistic development of the society. Therefore to address this issue, various initiatives are undertaken by the College to impart trainings and envisage programs for welfare of the society. Such initiatives enhance self-confidence and alacrity among the students towards works of amelioration in the society. 2. Nurturing the potential of students and empowering them to build future for themselves :

.....

Students are greater resource with enormous potential of bringing transformation in the society. They are not only the means for development of financial prosperity but also a vector of Social Change. We strive our best to encourage our students to take charge of treading tumultuous path on their own by transforming their attitudes, beliefs, strengthening their self- esteem, self- efficacy and confidence. This is achieved through several channels like , MOOC courses, exchange programs, extension activities, workshops, seminars, creating opportunities for learning critical skills on their own, interaction with industry and academia, assigning projects, involvement in various researches, field works etc. Students are facilitated international exposures

through various international linkages and exchange programs. With persistent effort, we succeeded in bringing Massive Online Courses like Coursera (A N College on Coursera), IIRS- ISRO courses and NPTEL-SWAYM courses. These courses enabled our students to learn and imbibe the requisite skill sets and scruples of Science and Technologies, Data Analytics, Data mining, Machine Learning, Python, Java, Web designing, Business Analytics, GIS, Global Navigation System, Remote Sensing and many more skill oriented courses of the topmost universities of the world to do better in fiercely competitive global job markets. In addition to these, we conducted many Student Development Programs to equip them with essential skills. We believe that our students should be equipped with essential scruples and adroitness to compete in diverse global environment. Through Spoken Tutorials of IIT Mumbai and other digital platforms, they are imparted specialised training in soft skills etc. Depending on their inclination, students also get trainings in research projects. Extension programs conducted by NSS, NCC and Research projects also instill confidence and skill to work in unison with Society. Workshops, seminar, panel discussions, speech completions, organised on our own and in collaboration with industries, NGOs, Government Organisations, Research Institutions etc. inspire and encourage our students to for innovation and entrepreneurship. Teachers play a vital central role in creating learning opportunities, achieving ambition and excellence, offering differentiated opportunities to students.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Our vision statement delineates and nurture hopes that students of our college would have knack for solving growing demands of the society, germinate innovative ideas and would model environment to face global sustainability challenges. We believe that "We can build youth for future" In consonance with the above statement our R D activities are oriented towards amelioration of the society through arsenic and fluoride mitigation strategies in drinking water of Bihar and extension activities. The ultimate goal of meaningful scientific researches and efforts are to solve societal problems and to develop and model technological and scientific marvels towards benevolence of the society. Arsenic and fluoride contaminations in drinking water are rampant and wide prevalent in Bihar. Following essence of the Vision and Mission statement, the college has focused its R D activities towards the benefits of the society. An international project entitled "Project INNOWATEREvolvement of Novel and Rapid Monitoring sensor in rural settings of Bihar" is a novel attempt in this direction. The Mitigation strategies pertaining to Arsenic and Fluoride contaminations have been widely acclaimed nationally and internationally. The college has installed an Arsenic filtration unit to be operated through solar energy in Maner Block of Patna district. DSTNIAS sponsored project on "Community based technological solution for providing safe drinking water to Arsenic exposed population in GangaMeghnaBramhaputra Delta" has contributed immensely in improving the water quality in this region. At Maner Block in Patna district, Villages have been immensely benefited from the clean water that is now pumped from deep borewells that were dug for understanding hydrology of the arseniferrous aquifers. After close monitoring and comprehensive testing and declared safe, these hand pumps were donated to villagers in consultation with our international research partner, TU, Delft, The Netherlands. These now serve as safe water sources. Similar processes have been carried out in case of Fluoride contamination, in Nawada district of

Bihar. With locally available herbs, attempts have been made to make available fluoride free drinking water. Simultaneously, awareness campaigns on clean drinking water are being carried. The action, research has become mutual learning platform for academia and "laboratory has been extended to local population" to solve societal problems. In this was our endeavored to motivate teachers, researchers and students to undertake innovative academic pursuits that meets the humane and societal demands are on the road to success.
