Notice

Shrikrishna Science Centre, a constituent unit of the National Council of Science Museums, is one of the premier institutions under the Government of India. Our primary focus is on popularizing science to cultivate a scientific temperament among people. To achieve this, we develop various educational facilities and programs, including permanent galleries closely aligned with school curricula.

We are pleased to inform you that Shrikrishna Science Centre, Patna, is going to organize the Innovation Festival-2025 for the students of Patna District. This two-day event is scheduled for 19th & 20th March 2025 and aims to provide a platform for the young minds of Patna to showcase their creative innovations and groundbreaking projects that align with our theme. The festival will be held under the theme: "Innovation Through Cooperation: Building a Better World Together."

This Innovation Festival-2025 is designed for students from the Junior Category (Classes VIII to XI) and the Senior Category (Undergraduate & Engineering Students) to present their innovative ideas. The event will highlight the importance of innovation and collaboration in addressing global challenges.

In view of the above, we request your esteemed institution to kindly circulate this upcoming festival program among your students to participate in this exciting event. This festival not only provides a platform for students to exhibit their creativity but also offers them a chance to engage with experts and gain recognition for their contributions to various fields such as science, engineering, energy, and architecture.
